

GLUE FLAP

**FOR BEST RESULTS** Apply the ActiPatch immediately after surgery or injury. Wear continuously, a minimum of 6 hours, until pain and swelling are gone. ActiPatch is safe to use 24 hours per day and will deliver an estimated 720 hours of treatment. Remove ActiPatch before bathing or showering. Store ActiPatch in a cool dry location.

**HOW ACTIPATCH™ WORKS:** ActiPatch™ induces an undetectable electrical current into damaged cells at a frequency which recharges the cell, stops the release of pain and inflammatory mediators, increases blood flow and re-establishes normal cell interaction. As a result, your body can begin to heal faster and you experience less swelling, pain and bruising.
