#### NOTE 1- NATURE OF BUSINESS

BioElectronics is an electroceutical company that develops wearable, neuromodulation devices to safely mitigate neurological diseases and improve quality of life. Our innovative pulsed shortwave therapy technology (PSWT) that uses low power pulsed electromagnetic fields regulate electrical activity of the nervous system. The neuromodulation basis of PSWT presents significant opportunities for BioElectronics to develop optimized technology for diabetic neuropathy, postoperative surgery, chronic wounds, and other applications.

In February 2017, BioElectronics announced that it received over-the-counter use market clearance from the US FDA for ActiPatch® for the adjunctive treatment of musculoskeletal pain related to plantar fasciitis of the heel, and osteoarthritis of the knee.

Our current OTC product line includes ActiPatch® Musculoskeletal Pain Therapy, Allay® Menstrual Pain Therapy, Smart Insole™ Heel Pain Therapy, and RecoveryRx® Post-operative and Chronic Wounds Therapy. The US FDA clearance is for our flagship product the ActiPatch® Musculoskeletal Pain Therapy, developed to relieve chronic pain. ActiPatch is a drug-free, wearable nonprescription medical device that provides 720-hours (90, 8-hour treatments) of on/off therapy. Most users obtain relief with only 8 hours per day of use, so the device will generally last several months, depending on use.

In February 2020, BioElectronics obtained a new 510(k) clearance from the U.S. FDA, granting over-the-counter marketing clearance for the drug-free ActiPatch® medical device, to cover all musculoskeletal pain complaints. This paves the way for new products to treat all medical claims for musculoskeletal pain, including in the back, knee, hips, wrists, elbow, and ankle.

The chronic pain market is larger than diabetes, heart disease, and cancer combined, with 20% of adults globally suffering from chronic pain. ActiPatch addresses the unmet need for 1.5 billion worldwide chronic pain sufferers. The Company's medical devices modulate the body's nerve activity to dampen the pain perception, which reduces drug use.

Ken McLeod, PhD. Director of Clinical Science and Engineering Research, Binghamton State University of New York, explains in a short video how the technology and ActiPatch works at <a href="http://actipatch.com/why-actipatch/">http://actipatch.com/why-actipatch/</a>. The technology has the potential to become the standard of care throughout the healthcare continuum across the OTC and healthcare markets. BioElectronics' technology offers significant opportunities in menstrual pain, heel pain, migraine headaches, diabetic neuropathy, postoperative surgery, chronic wounds, bone growth stimulation, and other applications.

The Company has focused attention on international customers to expand its distributions and sales. The Company has established distribution agreements with distributors in the United Kingdom, Sweden, Singapore, Malaysia, Canada, Spain, and Italy. The distribution agreements grant the right to sell BioElectronics' products in certain territories. The distributors are responsible for advertising

#### **NOTE 1- NATURE OF BUSINESS (Continued)**

and promotion in their assigned territories. In addition, the distributors are subject to minimum annual product purchases, minimum initial purchases, and minimum inventory requirements.

The United Kingdom's National Health Services has recently reduced its funding for hip and knee replacement surgeries. We anticipate the restoration of this budget allowance in the near future.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Presentation**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Any reference in these notes to applicable guidance is meant to refer to the authoritative United States generally accepted accounting principles as found in the Accounting Standards Codification ("ASC") and Accounting Standards Update ("ASU") of the Financial Accounting Standards Board ("FASB"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. On an ongoing basis, the Company's management evaluates its estimates,

which include, but are not limited to, estimates related to accrued expenses, stock-based compensation expense, and reported amounts of revenues and expenses during the reported period. The Company bases its estimates on historical experience and other market-specific or other relevant assumptions that it believes to be reasonable under the circumstances. Actual results may differ from those estimates or assumptions.

#### Cash and Cash Equivalents

Cash and cash equivalents consist of funds held with commercial banks and financial institutions. The Company considers all investments in highly liquid financial instruments with an original maturity of three months or less at the date of purchase to be cash equivalents.

#### Fair Value Measurements

The Company's financial instruments include cash and cash equivalents. The Company follows the guidelines in ASC 820, "Fair Value Measurements and Disclosures". Fair value is defined as the price that would be received from selling an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

The Company applies the following fair value, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 - Quoted prices in active markets for identical assets and liabilities.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 2 - Observable inputs, other than quoted prices, in active markets for identical assets and liabilities in inactive markets, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models.

The Company periodically evaluates financial assets and liabilities subject to fair value measurements to determine the appropriate level at which to classify them each reporting period. This determination requires the Company to make subjective judgments as to the significance of inputs used in determining fair value and where such inputs lie within the ASC 820 hierarchy.

The Company had no assets or liabilities that were measured using quoted prices for similar assets and liabilities or significant unobservable inputs (Level 2 and Level 3 assets and liabilities, respectively) as of March 31, 2020 and December 31, 2019. The carrying value of cash of \$22,786 and \$46,195 as of March 31, 2020 and December 31, 2019, respectively, is included in cash and cash equivalents and approximates market values based on quoted market prices (Level 1 inputs).

#### Concentration of Credit Risk

Credit risk represents the risk that the Company would incur a loss if counterparties failed to perform pursuant to the terms of their agreements. Financial instruments that potentially expose the Company to concentrations of credit risk consist primarily of cash and cash equivalents. These deposits and funds may be redeemed upon demand and, therefore, bear minimal risk. The Company does not anticipate any losses on such balances.

#### Property and Equipment

Property and equipment includes leasehold improvements, office furniture and computers, and all are recorded at cost and depreciated on a straight-line basis over estimated useful lives of five years. Upon retirement or disposition of assets, the costs and related accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations. Expenditures for repairs and maintenance are charged to operations as incurred; major replacements that extend the useful life are capitalized.

#### Revenue Recognition

The Company sells its products to wholesale distributors, directly to hospitals and clinics, and now also directly to consumers with the US FDA market clearance. Revenue is recognized when evidence of an arrangement exists, pricing is fixed and determinable, collection is reasonably assured, and shipment has occurred. Payment is due in most cases on a net basis of 60 days. If the customer is deemed not credit worthy, payment in advance is required. Payments received in advance of when revenue is recognized are recorded as deferred revenue on the balance sheets and

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

recognized as revenue when the goods are shipped and all other general revenue recognition criteria have been met. No allowance for sales returns is required for the three months ended March 31, 2020 and 2019. Defective units are replaced at the request of the customer.

#### **Accrued Liabilities**

The Company is required to estimate accrued liabilities as part of the process of preparing its financial statements. The estimation of accrued liabilities involves identifying services that have been performed on the Company's behalf, and then estimating the level of service performed and the associated cost incurred for such services as of each balance sheet date. Accrued liabilities include professional service fees, payroll liabilities, payroll tax liabilities and other services rendered and not yet paid as of the balance sheet date. Pursuant to the Company's assessment of the services that have been performed and the liabilities incurred, the Company recognizes these expenses as the services are provided.

#### Research and development expenses

Research and development costs are charged to expense as incurred in performing research and development activities. The costs include employee compensation costs, facilities and overhead, clinical study costs, regulatory and other related costs.

#### Stock-based compensation expense

The Company accounts for its stock-based compensation awards to employees and directors in accordance with FASB ASC Topic 718, *Compensation-Stock Compensation* ("ASC 718"). ASC 718 requires all stock-based payments to employees, including grants of employee stock options and restricted stock, to be recognized in the statements of operations based on their grant date fair values. Compensation expense related to awards to employees is recognized on a straight-line basis based on the grant date fair value over the associated service period of the award, which is generally the vesting term. Share-based payments issued to non-employees are recorded at their fair values, and are periodically revalued as the equity instruments vest and are recognized as expense over the related service period in accordance with the provisions of ASC 718 and FASB ASC Topic 505, *Equity*, ("ASC 505") and are expensed using an accelerated attribution model.

The Company estimates the fair value of its stock options using the Black- Scholes option pricing model, which requires the input of subjective assumptions, including (a) the expected volatility of the Company's stock price, (b) the expected term of the award, (c) the risk-free interest rate,

(d) expected dividends and (e) the estimated fair value of the Company's common stock on the measurement date. The Company's actual historical stock price volatility data is the basis for expected volatility.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Income taxes

Income taxes are recorded in accordance with FASB ASC Topic 740, *Income Taxes* ("ASC 740"), which provides for deferred taxes using an asset and liability approach. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and the tax reporting basis of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. The Company provides a valuation allowance against net deferred tax assets unless, based upon the available evidence, it is more likely than not that the deferred tax assets will be realized. The Company has evaluated available evidence and concluded that the Company may not realize the benefit of its deferred tax assets; therefore, a valuation allowance has been established for the full amount of the deferred tax assets.

The Company accounts for uncertain tax positions in accordance with the provisions of ASC 740. When uncertain tax positions exist, the Company recognizes the tax benefit of tax positions to the extent that the benefit will more likely than not be realized. The determination as to whether the tax benefit will more likely than not be realized is based upon the technical merits of the tax position as well as consideration of the available facts and circumstances. As of March 31, 2020 and December 31, 2019, the Company does not have any significant uncertain tax positions. The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense.

#### Earnings per share

Basic earnings per share attributable to common stockholders is calculated by dividing net loss attributable to common stockholders by the weighted average shares outstanding during the period, without consideration for common stock equivalents.

Diluted earnings per share attributable to common stockholders is calculated by adjusting weighted average shares outstanding for the dilutive effect of common stock equivalents outstanding for the period, determined using the treasury-stock and if-converted methods. For purposes of the diluted net loss per share attributable to common stockholders' calculation, stock options, unvested restricted stock, and warrants are considered to be common stock equivalents but have been excluded from the calculation of diluted net loss per share attributable to common stockholders, as their effect would be anti-dilutive for all periods presented. Therefore, basic and diluted net loss per share were the same for all periods presented.

#### Recent accounting pronouncements

The Company adopts new pronouncements relating to generally accepted accounting principles applicable to the Company as they are issued, which may be in advance of their required effective date. Management does not believe that any pronouncement not yet effective but recently issued would, if adopted, have a material effect on the accompanying financial statements.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Trade Receivables

The Company maintains reserves on customer accounts where estimated losses may result from the inability of its customers to make required payments. These reserves are determined based on a number of factors, including the current financial condition of specific customers, the age of trade and other receivable balances and historical loss rate. The allowance for doubtful accounts was \$74,904 and \$59,193 at March 31, 2020 and December 31, 2019, respectively.

#### Inventory

Inventory is valued at the lower of cost or market using the first-in, first-out method. Market is current replacement cost.

#### Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the balance sheet, and the reported amounts of revenues and expense during the reporting periods. Actual results could differ from those estimates.

#### Stockholders' Equity Transactions

On June 18, 2009, the Company authorized to increase the number of common shares from 750,000,000 to 1,000,000,000, with multiple increases to get to 16,000,000,000 in 2016, and

additional increases to 20,000,000 in 2017, and to 25,000,000 in 2018. These increases are a result of the continued requirement to cover the potential issuance of common stock resulting from the conversion of debt to equity. The holders of the remaining shares to be issued upon conversion or exercise of equity instruments can sell those shares into the public market. The resale of these shares could have a negative impact on the stock price, and these conversions would have a dilutive impact on our shareholders. As a result, our net income per share could decrease for future periods, and the market price of our common stock could decline.

#### **NOTE 3 – GOING CONCERN**

The Company has incurred substantial losses from operations. The Company sustained a net loss of \$2,186,972 for the year ended December 31, 2019, and a cumulative net loss since inception of \$36,948,323. The Company is currently seeking financing to provide the needed funds for operations. However, the Company can provide no assurance that it will be able to obtain the financing it needs to continue its efforts for market acceptance, and to maintain operations, and thus there is substantial doubt of the Company's ability to continue as a going concern.

#### **NOTE 4 - INVENTORY**

The components of inventory consisted of the following as of:

	March 31,		Dec	eember 31,		
	2020		2020			2019
Raw materials	\$	45,455	\$	83,789		
Prepaid inventory		54,993		-		
Finished goods		66,889		15,470		
	\$	167,337	\$	99,259		

#### NOTE 5 – PROPERTY AND EQUIPMENT, NET

Property and equipment, net consists of the following as of:

	March 31,		h 31, Decer	
	2020			2019
Machinery & Equipment	\$	174,179	\$	174,179
Leasehold improvements		6,882		6,882
		181,061		181,061
Less: accumulated depreciation		181,061		181,061
Total property and equipment, net	\$		\$	

For the three months ended March 31, 2020 and 2019, depreciation expense on property and equipment amounted to \$553 and \$0, respectively.

#### **NOTE 6 – NOTES PAYABLE**

In May 2013, the Company finalized a line of credit agreement with the Export-Import Bank of the United States (EXIM Bank), with the terms modified though a Loan, Security and Guaranty agreement dated May 16, 2015. This agreement was further amended on January 8, 2018, whereas EXIM Bank agreed to a revised repayment schedule, with a new effective interest rate of 5.23%, with

monthly payments of \$3,200 through November 15, 2023, and the remaining principal of \$396,468 due at that time. The balance owed on this note to EXIM Bank was \$478,700 at March 31, 2020.

During the first quarter of 2018, the Company entered into a convertible note agreement with McLeod Holdings, receiving financing of \$72,000, with an interest rate of 8% per annum and convertible at a rate of \$.0003 per share. As of March 31, 2020, the balance on this note amounted to \$84,091.

During the second quarter of 2018, the Company entered into a convertible note agreement with Timothy Kim, receiving financing of \$200,000, with an interest rate of 8% per annum and convertible

#### **NOTE 6 – NOTES PAYABLE (Continued)**

at a rate of \$.0013 per share. During 2019, this loan was extended for two years at a new rate of 12% and a new conversion rate of \$.00025 at the updated value of \$227,220. In addition, Kim provided a new loan at 12% in 2019 for \$100,000, and an additional \$50,000 loan during the three months ended March 31, 2020. The total value of the notes due to Kim amounted to \$388,656 as of March 31, 2020.

During the second quarter of 2018, the Company entered into a convertible note agreement with Abhinav Humar, receiving financing of \$160,000, with an interest rate of 8% per annum and convertible at a rate of \$.0013 per share. The balance on this loan was \$185,402 as of March 31, 2020.

During the first second quarter of 2018, the Company entered into a convertible note agreement with James Eason, receiving financing of \$135,000, with an interest rate of 8% per annum and convertible at a rate of \$.001 per share. The balance on this loan was \$156,010 as of March 31, 2020.

In July 2018, the Company obtained \$200,000 in short-term financing with WebBank, with future receivables as collateral, requiring weekly payments of \$4,770 for 52 weeks. An additional \$82,000 was loaned to the Company under this financing agreement, with additional weekly payments of \$3,286. These loans were paid off during 2019. WebBank provided new short-term financing of \$200,000 in May 2019, with weekly payments of \$4,735 for 52 weeks. The balance on this loan as of March 31, 2020 was \$40,958.

In September 2019, Fox Capital provided a \$50,000 loan to the Company, with weekly payments of \$3,020 for six months. This loan was paid off during the three months ending March 31, 2020.

Total interest expense on external financing for the three months ended March 31, 2020 and 2019 amounted to \$35,754 and \$35,407, respectively. The corresponding shares to be issued upon the conversion of the external convertible debt amounts to 2,133,555,110 and 1,881,223,433 common shares as of March 31, 2020 and December 31, 2019, respectively.

#### NOTE 7 – RELATED PARTY NOTES PAYABLE

#### IBEX Promissory Convertible Notes Payable

IBEX, LLC is a limited liability company, and wholly owned by Kelly Whelan, the President of the Company. Beginning on August 1, 2009, the Company started entering into convertible promissory note agreements with IBEX with simple interest at 8% per annum. All accrued interest and principal on the various notes payable are due on or before the end of the month two years from the date of issuance, whether by the payment of cash or by conversion into shares of the Company's common stock, unless otherwise extended with new terms. According to the original Security Agreement dated August 1, 2009, the Company grants IBEX a security interest in, all of the right, title, and interest of the Company, in and to all of the Company's personal property and intellectual property, and all proceeds or replacements as collateral for the convertible promissory note agreements. The Security Agreement has been subordinated to the EX-IM Bank.

#### **NOTE 7 – RELATED PARTY NOTES PAYABLE (Continued)**

The conversion prices on the convertible notes payable have generally been 50% or less of the pink sheet closing price of the common stock on the date the notes or advances are issued to reflect the restricted nature of the stock into which the notes could be converted and the Board of Directors' belief that the closing stock price is not reflective of the fair market value of the common stock due to the price volatility, and lack of an active market for trading shares resulting in limited trading volume of share transactions. The Board of Directors is active in negotiating conversion prices for each issuance and takes into consideration all information in establishing the issuance date fair market value.

Starting in 2012 and continuing through March 31, 2020, the Company has extended the maturity dates by up to two years on several separate notes through multiple agreements with IBEX, as a result of insufficient cash to make payments on amounts owed. In exchange for the extensions, the conversion prices were changed to 50% of the existing market price of the Common Stock on the date of the extension. Due to the drop in stock prices since the original note issuances, the corresponding shares to be issued on the conversion of these IBEX notes has increased to 22,330,234,981 at March 31, 2020.

During the three months ended March 31, 2020 and 2019, the Company borrowed \$0 and \$100,000, respectively, through additional promissory notes with IBEX.

During the three months ended March 31, 2020, there were no IBEX notes converted into shares of common stock, and during the three months ended March 31, 2019, there were \$355,932 of IBEX notes converted into 738,434,890 shares of common stock.

Total interest expense on the IBEX convertible promissory notes payable for the three months ended March 31, 2020 and 2019 was \$123,058 and \$116,372, respectively. The balance owed to IBEX amounted to \$6,292,779 and \$6,169,721 as of March 31, 2020 and December 31, 2019, respectively.

#### Other Related Party Loans

The Company has entered into convertible promissory note agreements with various other related parties of the Company. Other related parties consist of family members of the President of the Company, as well as the former Chairman of the Company. Additionally, St. Johns, LLC is a limited liability company, which is owned by a family member of the President of the Company.

Most of the promissory notes bears simple interest at 8% per annum, and all accrued interest and principal is due on the maturity date. At the option of the holder, the promissory notes are convertible into common shares of the Company's stock at a conversion rate equal to the quotient of (i) a sum equal to the entire outstanding principal and interest, divided by (ii) the conversion price.

Similar to the IBEX promissory convertible notes, the conversion prices per the terms of the note agreements are based on the fair value of the OTC closing price of the Company's stock as of the

date of issuance, discounted based on the factors previously discussed in the disclosures related to the IBEX Revolver Agreement.

#### **NOTE 7 – RELATED PARTY NOTES PAYABLE (Continued)**

During the three months ended March 31, 2020, \$289,551 of other related party notes were converted into 453,409,250 shares of common stock, and for the three months ended March 31, 2019, \$52,095 of other related party loans were converted into 173,651,367 shares of common stock.

During the three months ended March 31, 2020 and 2019, the Company borrowed \$160,000 and \$135,000, respectively, through additional promissory notes with other related parties.

Due to the drop in stock prices since the original note issuances, and the new notes, the corresponding shares to be issued on the conversion of these other related party loans has increased to 21,279,071,737 at March 31, 2020 from 20,792,944,394 at December 31, 2019.

Total interest expense on the other related party promissory notes payable for the three months ended March 31, 2020 and 2019 was \$108,286 and \$116,372, respectively.

The balance of the other related party notes payable amounted to \$5,268,408 and \$5,289,037, as of March 31, 2020 and December 31, 2019, respectively.

#### **NOTE 8 – INCOME TAXES**

The Company has not provided for income tax expense for the three months ended March 31, 2020 because of a significant net operating loss carry-forward of approximately \$38 million. The net operating losses expire in various years through 2039.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which these temporary differences become deductible.

Based on available evidence, Company's management believes that it is more likely than not that the Company will not be able to realize the benefit of its net deferred tax assets as of March 31, 2020 and December 31, 2019, and that a full valuation reserve is needed to reduce the net deferred tax asset value to \$0 for each year.

#### **NOTE 9 – NET LOSS PER SHARE**

Basic net loss per common share is determined by dividing net loss by the weighted-average number of common shares outstanding during the period, without consideration of common stock equivalents. Diluted net income per share is computed by dividing net income by the weighted-average number of common stock equivalents outstanding for the period.

# **NOTE 9 – NET LOSS PER SHARE (Continued)**

The following table sets forth the computation of basic and diluted share data:

	Three Months	Ended	l March 31,
	 2020		2019
Net Loss	\$ (634,794)	\$	(562,958)
Basic and Diluted Net Loss per Common Share	\$ (0.00003)	\$	(0.00003)
Weighted Average Number of Shares Outstanding - Basic and Diluted	23,144,223,361	_	21,162,261,149
Options and Shares Not Included Above (Antidilutive):			
Nonvested and Vested Restricted Share Awards	100,000,000		100,000,000
Options to Purchase Common Stock	 1,593,700,000		1,593,700,000
	 1,693,700,000		1,693,700,000

#### **NOTE 10 – SHARE BASED COMPENSATION**

On November 30, 2004, as amended March 22, 2005, the Company adopted the BioElectronics Equity Incentive Plan ("the Plan"), for the purpose of providing incentives for officers, directors, consultants and key employees to promote the success of the Company, and to enhance the Company's ability to attract and retain the services of such persons, in the form of stock options and restricted shares.

### **Restricted Stock and Stock Option Awards**

A summary of the Company's restricted stock and stock option activity for the three months ended March 31, 2020 is as follows:

Weighted-

Nonvested Restricted Shares	Shares	average grant date fair value	
Balance at December 31, 2019	100,000,000 \$	0.00035	
Granted	-	-	
Vested	-	-	
Forfeited		-	
Balance at March 31, 2020	100,000,000 \$	0.00035	
Stock options	Shares	Weighted- average exercise price	Weighted- average remaining contractual term (years)
Balance at December 31, 2019	1,593,700,000 \$	0.0020	4.1
Granted	-		
Exercised	-		
Forfeited	(48,700,000)	(0.0287)	
Balance at March 31, 2020	1,545,000,000 \$	0.0012	4.2

#### **NOTE 10 – SHARE BASED COMPENSATION (Continued)**

Compensation expense for restricted stock and stock options was \$3,867 and \$0 for the three months ended March 31, 2020 and 2019, respectively.

#### **NOTE 11 – COMMITMENTS AND CONTINGENCIES**

In the ordinary course of conducting its business, the Company may become involved in various legal actions and other claims, some of which are currently pending. Litigation is subject to many uncertainties and management may be unable to accurately predict the outcome of individual litigated matters. Some of these matters may possibly be decided unfavorably towards the Company.

#### **SEC Case**

In February 2016, the Securities and Exchange Commission instituted a public administrative and cease-and desist proceedings, pursuant to Section 8A of the Securities Act of 1933 against the Company. The Company and the SEC Enforcement Division have executed a Settlement Agreement, requiring the Company to pay as a joint and severable liability \$191,640 in total. The Company recorded this liability as of December 31, 2019, and this amount remains as a liability as of March 31, 2020.

Company is involved, on a continuing basis, in monitoring our compliance with environmental laws and in making capital and operating improvements necessary to comply with existing and anticipated environmental requirements. While it is impossible to predict with certainty, management currently does not foresee such expenses in the future as having a material effect on the business, results of operations, or financial condition of the Company.

#### **NOTE 12 – CONCENTRATIONS**

As of March 31, 2020, approximately 88% of trade receivables was with six customers. For the three months ended March 31, 2020 approximately 79% of sales was from three customers. As of March 31, 2020, approximately 34% of accounts payable and accrued expenses are attributable to payroll and estimated payroll taxes, and another 18% attributable to three vendors.

#### **NOTE 13 – SUBSEQUENT EVENTS**

On June 12, 2020, Patricia Whelan resigned from the Board of Directors and Richard Staelin, PhD was appointed as the Chairman of the Board.
